

Curriculum Vitae

Dimitris Vattis, BSc, PhD, Professor

Dr. Dimitris Vattis is professor of Chemistry in the Department of Physics, Chemistry and Materials Technology of the Technological Educational Institute (T.E.I.) of Athens.

He obtained his diploma (Chemistry) in 1971 and his PhD (Electrochemistry) in 1978 from the University of Patras.

He started his academic carrier in 1971 as assistant in the Chemistry Department, University of Patras and in 1978 he was elected as Lecturer. In 1980 he worked as a research fellow for more than one year at the Chemistry Department, Edinburgh University of Scotland. In 1984 he was elected as Assistant Professor in the Chemistry Department, University of Patras and in 1985 he moved to his current academic position at the Technological Educational Institute (T.E.I.) of Athens.

Dr. Dimitris Vattis research interests are focused on Instrumental Analysis, Instrumentation, Inorganic Electrochemistry, Electrochemical Biosensors, Heterogeneous Catalysis, Catalysts Preparation, Surface Characterization and Environmental Catalysis.

He is author or co-author of 23 research publications in peer review international journals and 4 conference papers (for details visit <http://publicationslist.org/php/publist.php?u=dvat>). His work is cited more than 150 times (source Web of Science 09/2010).

He participated in 9 national research projects (Coordinator in 3) and he has close collaboration with the Catalysis Group, Department of Chemistry, University of Patras.

Dr. Dimitris Vattis was Head of the Department of Physics, Chemistry and Materials Technology, Technological Educational Institute of Athens (2000-2006) and Dean of the Faculty of Technological Applications, Technological Educational Institute of Athens (2006-2010). He is Head of the Department of Physics, Chemistry and Materials Technology, Technological Educational Institute of Athens (2010-2012)

He is a member of the Hellenic Catalysis Society and the Greek Chemists' Association.

Office Address

Department of Physics, Chemistry and Materials Technology, Technological Educational Institute of Athens, Ag. Spyridonos, 122 10, Egaleo, Greece
